

CFPO

CERTIFIED FAMILY
& PARENTING COACH

What is Family Coaching?

Family coaching is a process where one or more members of a family partners with a coach to address goals that will ultimately improve their family dynamics. Family Coaching is a holistic approach that can focus on different areas like, building new families, solving marriage issues, handling teenagers, solving marriage issues, enhancing relationships with the extened families, developing specific parenting skills, etc..

What does a Family & Parenting Coach do?

A CFPC (Certified Family & Parenting Coach) doesn't prescribe solutions to the clients, but inspire them to find a solution that fits their family. A CFPC coach will help you get clear on your family & relationship values, experiences and goals. Happier people (and families) tend to enjoy better family relationships, live a healthier life, have closer friendships, are more creative and productive at work and in life, and achieve greater success.

How does A Family & Parenting Coach (CFPC) help their clients

Some of the most common points that a CFPC can address are:

- General feeling of Overload
- Marriage challenges
- Difficult phases of children development
- Blended family issues
- Dealing with external pressure (School, Finance, grandparents, etc..)
- Commit to and realize meaningful goals

Positive psychology provides important research-backed solutions and practices for coaches that when combined with the techniques and strategies of coaching, clients can achieve a much more powerful growth.
